

COVID-19 CORONAVIRUS STATEMENT

AUGUST 25, 2021

In the past year we have all been impacted by the coronavirus pandemic. Many have experienced losses and everyone has experienced disruptions to life. We are now entering into a new phase where many are vaccinated, and Washington State is opening up to “business as usual.”

The safety of the Goodenough Community’s members and Sahale’s guests continues to be very important to us. Sahale is now open for visitors and events. We are following the CDC’s guidance and suggest that those who are unvaccinated take some additional precautions for your own safety. We can accommodate everyone who visits, and it is helpful to know your vaccination status for us to plan well.

Our best wishes to all as we navigate this transition together.
